

To Install Fixed Showerhead Filter (WMF):

1. Remove existing showerhead from shower.
2. Wrap Teflon tape tightly around shower pipe threads.
3. Place your new filter on shower pipe. Use a soft cloth to protect the finish and tighten by hand.
4. Check for leaks and tighten as appropriate.

To Replace Filter:

1. Remove shower head from pipe.
2. Hold the handle of showerhead firmly in one hand. With the other hand turn the ribbed ring behind face clockwise to unscrew.
3. Grasp white filter cartridge and pull filter up and to the side to remove. Replace new filter by pushing it firmly down into the vacuity until seated.
4. Align threads by turning whole faceplate counter clockwise until faceplate clicks into vacuity. Then turn only the ribbed ring behind faceplate in a counter clockwise direction until secure.
